

HC Clear

High scratch- and
abrasion resistance

HC Clear™ is a clear hard coating that can be applied to both acrylic and polycarbonate cover glass.

HC Clear™ provides high scratch and abrasion resistance, graffiti resistance, and improved weather performance. It also has excellent optical quality.

HC Clear™ can be applied on one or both sides of the optical filter regardless of the base material.

Technical Data

Hardness*: 4-8H*
* Dependent on base material

Base Materials: Acrylic,
Polycarbonate, PS
etc.
